December 12th.

Dear Mr. Bean.

Thank you very much for your letter
of November 9th, to which I should have
replied before but for the intervention of
the Scholarship exam.

About Olbasa: I haven't any
publicat of the inscriptions -
separate mind. Whether they would be included

ST. HILDA'S COLLEGE
OXFORD

is any published version of my thesis
is doubtful. That is something which
will probably become clearer to me
in the next few months. Probably they
won't best be published separately,
and if you did it, I should be very
glad to see you have any of my
photographs. (e.g. Craters)

I very much enjoy your continuous
travelling in Australia, especially in
Distinction. It would be very nice to settle
Colbasa.

Thank you very much for the suggestions
about the other Olbasa inscriptions. From
my notebook it looks as if ~~the~~ the

name - 1. 3 is KADAONAW. But it would
be very good if you saw the star
yourself; then lines 1 & 2 might be
cleaned up. In 1. my T might well be
a T. Unfortunately I didn't attempt
a photograph of this: it was in an
unfavourable position, flat on its back, facing
the Sun.

I have, however, photos of
the for tifications, which I enclose,
with indicators of their direction.

I hope you find the illuminating,
and shall be glad to hear any
comments on the. Canama is certainly
as exposed little place after Olbasa.
that made me think that are enough
to find different motives for the
foundations of colonies there: Olbas a
very much the fortress, Canama a

market town, spreading Roman influence
by peaceful means along the valley,

I am only too anxious to show
people my things; when I have seen
mae copies, I will let you have 'em.

With best wishes for Christmas
and a successful New Year.

Yours sincerely,

Barbara Levick.
