Dear Mr. Bean.

Thank you for your letter.

Mr. Lloyd told me that you
would probably write, but he
said that you visited Yalung
as well as the places you mention.

Is this so? Nobody in Yalung
told me you had followed me there.
As this does not seem quite clear, &
as I do not recognise all the names
you give I will write a list
of all the places I went to (pages
in brackets refer to approximate

number of inscriptions seen).
Konya. Museum (50)
Talvaz (Antioch) (150)
Barla (Parlais) (6)
Girne (Gemma, near Bucak) (6)
Antalga. Museum (12)
Gaupee (Comana) (6)
* Mountain above Kestel (called 'Olbasa'
on Anderson, 1912) (3)
* Mountain near Bucak, called 'Incili' (2)
Karamanli (2)
Belentli (Olbasa) (6)
Afyon Museum (2)
Hatun Serai (Lystia) (12)

* I am interested in finding out the
ancient names of these ruins.
I do not know Asia a Melli,
except perhaps by one of the names
above.

It seems very likely that our
collections have several items in
common. I should of course be delighted
to collaborate with you, but the per-
mission of the O.C. Green Committee
would be necessary, as it was
they, and not the Institute,

who financed my trip.

up till now I have been
planning to publish at least
all those iscriptions of which I
had photographs, about fifty in
all, old and new. I had not yet
decided what to do with the rest.
many of them are very scrappy.

Yours sincerely,

Barbara Leitch
